Profile

I'm **Dejen Achenef**, a passionate **Fullstack Flutter Developer** from Ethiopia, currently pursuing a **BSc in Computer Science** at Addis Ababa University. I specialize in building scalable **Flutter** and **ReactNative** applications

Professional Experience

ALX Hospitality Hackathon – Participant
02/2025
- Collaborated in a team to design and develop an innovative solution for the hospitality sector.
- Built a cross-platform prototype using **Flutter** and **Firebase**, focusing on user experience and performance.
- Strengthened teamwork, rapid prototyping, and presentation skills under high-pressure deadlines.

Better-Hack Hackathon (Better-Auth Company) – **Winner** 🏆 *09/2025*
- Led development of a secure authentication platform using **Node.js** and **React Native**.
- Integrated **Better-Auth APIs** to create a seamless, real-world login and identity system.
- Recognized as **hackathon winner** for innovation, technical implementation, and practical design impact.

Languages

- Amharic (Native)
- English (Fluent

Projects

1. Food Delivery App 🍔 *Flutter, Firebase, Node.js, Express.js, MongoDB*
2. Portfolio App 📱 *Flutter, Firebase, REST API Integration*
